# ABOUT US

To transform the planet's energy system is our mission. In order to create a more sustainable and promising future for humanity, we are utilizing solar energy to capture the sun's abundant and renewable electricity.

- ✔ Cut down on your carbon footprint.
- ✔ Boost the value of your house or place of business

## ON GRID SYSTEM

# OUR SERVICES

## **On-Grid Solar System:**

A solar energy system connected to the utility grid, allowing for net metering and access to grid electricity when solar production is insufficient.

## **Hybrid Solar System:**

A versatile solar energy system that combines on-grid and off-grid capabilities, utilizing both battery storage and grid connection for optimized energy management.

# SUBSIDY SCHEMES

Central Government Subsidy/Central Financial Assistance (CFA) is available exclusively to residential sector grid-connected rooftop solar projects. The details of the subsidy for residential consumers are provided below:

Plant Capacity	Applicable subsidy
